

TAVOLINO Xs90 COFFEE MACHINE CLEANING

Frequency : We recommend you to carry out the following cleaning program **once a day**.

NB: Once started, the cleaning procedure may not be stopped. The procedure takes approximately 15 minutes.

1. Switch on the Unit at the ON / OFF button. Open the front cover.
2. Press and hold the programming button. Rotate the programming dial until RINSE is displayed.
3. Press the programming button. Rotate the programming dial until CLEAN is displayed. Now press the programming button.
4. The display reads : EMPTY TRAY / EMPTY GROUNDS. Remove the drip tray and the dump box and empty. Re-insert both into the machine.
5. The display reads : PRESS RINSE.
6. Press the rinse button. 
7. The display reads : MACHINE CLEANING.
8. After a period, you will hear an acoustic signal and the machine will read : ADD TABLET / PRESS RINSE.
9. Open the lid of the filter funnel for pre-ground coffee. Drop the cleaning tablet inside the chute & close the lid.
10. Press the rinse button. 
11. The display reads : MACHINE CLEANING.
12. After a period, you will hear an acoustic signal and the machine will read : EMPTY DRIP TRAY / EMPTY GROUNDS. Remove the drip tray and the dump box and empty. Re-insert both into the machine.
13. The display reads : SELECT PRODUCT. The machine is now ready for use. We recommend that you dispense two products to allow the machine heat up fully.
